

IRONCAD DRAFT – 2D DRAWING – PAPER PROPERTY NAMES

The following Paper Properties from the 2D Drawing are available for populating Attributes within the Title Block. These Property Names can be used as Attribute Names as written (that is, the Attribute Name is written the same as the Property Name), or alternatively “Matched” to different Attribute Names using the “Set Matching Rule” (within Options).

Paper Properties from 2D Drawing		
Property Name	Data Type	Location / Description in 2D Drawing
Paper	Text	Paper Settings / Paper Scale
Paper Size	Text	Paper Settings / Paper Size
Scale	Text	Paper Settings / Paper Scale
....Scale	Text	Paper Settings / Paper Scale
.... Scale	Text	Paper Settings / Paper Scale

Any Attribute Name that ends with “Scale” will be automatically populated with the Paper Scale Property. If you want to use the word “Scale” in an Attribute Name but don’t want it linked to this property, then add some letters after it. Such as, “ScalePaper”.
