

IRONCAD DRAFT - TABLE STYLES

The following images are of the “Style Manager” dialog box. This is where “Styles” can be created and edited for use with Geometry and Annotations within the drawing. Note that “Styles” are saved with the current Drawing (or Template), and are not Global Settings.

Note that the setting of the “Standard” style are the same as the “Standard 025” style.

The “Standard 018” style is a non-standard style for use with A4 and A3 when required.

Regular	Standard 018	Standard 025	Standard 035
Data Align	Middle	Middle	Middle
Data Enable Merge Cells	No	No	No
Data Border Colour	ByBlock	ByBlock	ByBlock
Data Border Lineweight	ByBlock	ByBlock	ByBlock
Data Cell Frame	Bottom, Left Right, Top	Bottom, Left Right, Top	Bottom, Left Right, Top
Data Fill Colour (Background)	None	None	None
Data Margin Horizontal	0.9	1.25	1.75
Data Margin Vertical (Regarding the Text Area Height)	0.55	0.83333333	1.16666666
Header Align	Middle	Middle	Middle
Header Enable Merge Cells	No	No	No
Header Border Colour	ByBlock	ByBlock	ByBlock
Header Border Lineweight	ByBlock	ByBlock	ByBlock
Header Cell Frame	Bottom, Left Right, Top	Bottom, Left Right, Top	Bottom, Left Right, Top

Regular	Standard 018	Standard 025	Standard 035
Header Fill Colour (Background)	None	None	None
Header Margin Horizontal	0.9	1.25	1.75
Header Margin Vertical (Regarding the Text Area Height)	0.55	0.83333333	1.16666666
Table Direction	Downward	Downward	Downward
Title Align	Middle	Middle	Middle
<i>Title Border Colour</i>	<i>ByBlock</i>	<i>ByBlock</i>	<i>ByBlock</i>
<i>Title Border Lineweight</i>	<i>ByBlock</i>	<i>ByBlock</i>	<i>ByBlock</i>
<i>Title Cell Frame</i>	<i>Bottom, Left Right, Top</i>	<i>Bottom, Left Right, Top</i>	<i>Bottom, Left Right, Top</i>
Title Enable Merge Cells	Yes	Yes	Yes
Title Fill Colour (Background)	None	None	None
Title Margin Horizontal	1.25	1.75	2.5
Title Margin Vertical (Regarding the Text Area Height)	0.83333333	1.16666666	1.66666666

Regarding the above “.... Margin Vertical”, it’s important to understand that this is regarding the margin between the “Cell Border” and the “Text Area Height” (not the Text Height).

Text Area Height = 1.33333333 x Text Height (4/3 x Text Height)

1.8mm Text Height = 2.4mm (for 3.5mm cell height the margin is 0.55mm)
 2.5mm Text Height = 3.33333333mm (for 5mm cell height the margin is 0.83333333mm)
 3.5mm Text Height = 4.66666667mm (for 7mm cell height the margin is 1.16666667mm)
 5.0mm Text Height = 6.66666666mm (for 10mm cell height the margin is 1.66666667mm)

Text	Standard 018	Standard 025	Standard 035
Data Text Colour	ByLayer	ByLayer	ByLayer
Data Text Height (mm)	1.8	2.5	3.5
Data Text Rotation	0	0	0
Data Text Style	Standard	Standard	Standard
Header Text Colour	ByLayer	ByLayer	ByLayer
Header Text Height (mm)	1.8	2.5	3.5
Header Text Rotation	0	0	0
Header Text Style	Standard	Standard	Standard
Title Text Colour	ByLayer	ByLayer	ByLayer

Text	Standard 018	Standard 025	Standard 035
Title Text Height (mm)	2.5	3.5	5.0
Title Text Rotation	0	0	0
Title Text Style	Standard	Standard	Standard

The “Auto Layer Rule” in Options should be set to place these annotations onto these layers.

Layer Name	Colour				
	ACI	Name	R	G	B
Standard Annotations 018	2	Yellow	255	255	0
Standard Annotations 025	3	Green	0	255	0
Standard Annotations 035	4	Cyan	0	255	255
