## **IRONCAD DRAFT – TRANSFORMING EXISTING EMBEDDED IMAGES** (LOGOS)

For existing embedded images that were associated with "Paint" (or Paintbrush) in Windows 10, and now don't display in Windows 11, within IRONCAD DRAFT it is possible to easily change these to "Device Independent Bitmaps".

Step 1 – Select the image and right mouse click to open the context menu

Step 2 – Select the OLE Object "Transform" menu item.

This document is copyright of JAMES FORTEN INDUSTRIAL LTD and all rights are reserved.

Step 3 – Click the "Picture (Device Independent Bitmap)" and then click OK.
